

/home/james/NetBeansProjects
/ride/src/Highlighter.h

```
graph TD; A["/home/james/NetBeansProjects  
/ride/src/Highlighter.h"] --> B[QSyntaxHighlighter]; A --> C[QHash]; A --> D[QTextCharFormat];
```

The diagram illustrates a dependency or inheritance relationship. A central box at the top contains the file path `/home/james/NetBeansProjects/ride/src/Highlighter.h`. Three blue arrows originate from the bottom of this box and point to three separate boxes below it. The left box is labeled `QSyntaxHighlighter`, the middle box is labeled `QHash`, and the right box is labeled `QTextCharFormat`. This suggests that the `Highlighter.h` file defines or uses these three classes.

QSyntaxHighlighter

QHash

QTextCharFormat
